

THANK YOU

Thank you to the **City of New Westminster** for the generous 2022 grant contribution that made it possible for K.I.D.S. Childcare to revitalize the Victoria Hill playground.

Thanks to the City of New Westminster, we were able to:

- Remove multiple truckloads of invasive species
- Make the entire hillside on our playground safe for the children to use
- Built a fence to secure access to a high drop-off
- Install a climbing post for the children to use ropes to climb up the hillside
- Built a mud kitchen
- Create a play quarry/ play construction site
- Backfill soil on the hillside and begin seeding lawn
- Double the size of our vegetable/fruit garden to allow the children to grow food for our snack program
- Plant a sensory herb garden for the well-being of the children and to provide food sources for pollinators
- Start establishing a native plant hillside garden to support ecological health and biodiversity
